

Technical Service Representative – Greater Toronto Area #118

About Huntsman Building Solutions:

World-leading polyurethane spray foam company. Created in May 2020, with more than 110 years of combined heritage. We are looking for a technical service representative for the GTA to assist in accomplishing the Sales organization's mission of developing and maintaining a profitable customer base for spray foam products by leveraging our Technical Service Representative (TSR) Team resources to increase chemical and parts sales.

Essential Duties :

- Training customers, sales representatives and employees on how to apply Huntsman Building Solutions polyurethane spray foam products according to specifications.
- Extensive travel to customer job sites for troubleshooting and /or training on application of Huntsman Building Solutions polyurethane spray foam products.
- Input on Huntsman Building Solutions specs and TDS is required to make sure the most accurate information is available for the customer.
- Reporting to document projects.
- Ability to develop strong customer relationships and inspire customer confidence.
- Inspection of projects warranted and non-warranted, to ensure Huntsman Building Solutions standards are followed.
- Ability to acutely follow all Huntsman Building Solutions and applicable governmental safety regulations are required.

Experience/Qualifications:

- Experience and advanced knowledge in applying polyurethane spray foam is required. Must also have a working knowledge of equipment associated with the process of SPF application.
- A minimum of two to four years field service experience as a Field Service Engineer, Field Service Technician is preferred.
- Technical Certification preferred.
- Strong technical ability is required.
- Strong Customer service focus.
- Good organizational and time management skills are a must.
- Must maintain a valid driver's license.
- Strong verbal and written communication skills.

Work Environment & Physical Requirements:

- Working at all types of construction work sites (including residences)
- Must be able to travel 70%+ of the work week by air or car. Must also be able to work flexible hours with minimum notification when necessary. Location of individual should be near a major airport.
- Working under extreme conditions (heat/cold)
- Able to wear a full-body Tyvek suit
- Able to wear a sealed full-face respirator
- Able to work in tight areas
- Walk up and down ladders
- Able to lift, carry, pull 50-70 lbs.
